THE STORY BEHIND GRACEFULLY HONORED

In loving memory of my dad, Jim.

James L. "Jim" Ebersohl
1946 — 2026

Gracefully Honored began with my dad.

When my dad, Jim, passed away, I walked into the funeral home expecting to answer questions and be guided through what came next.

We discussed his life, prayer cards, the luncheon, and so many other details. But it wasn't until our pastor asked what we wanted the order of service to be that I realized there was something I hadn't thought about: how the service itself would unfold.

Who would speak? What scriptures would be read? What music would feel like Dad? How would we bring those pieces together?

In the middle of missing him, I was trying to organize something I had never done before.

Creating his memorial program became a personal way to honor him. It gave those readings, memories and meaningful moments a place together—and gave our family something to hold on to afterward.

Gracefully Honored grew from that experience.

My hope is to make this one part of saying goodbye a little gentler. You don't need to arrive with perfectly organized words or a finished plan. I can help you gather the photographs, organize the details and create a personal program using the service arrangements you confirm with your pastor, celebrant or funeral director.

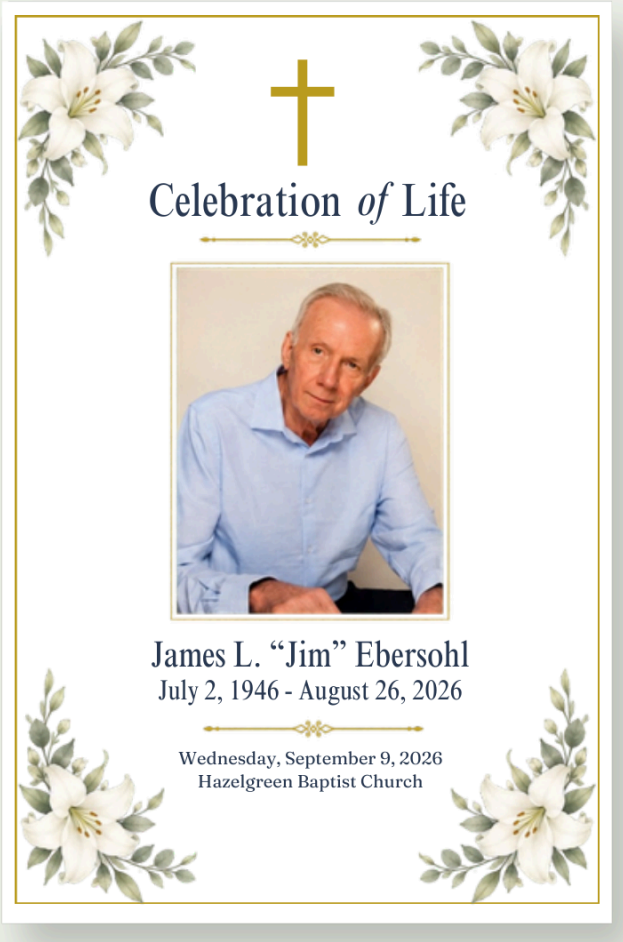

You will work directly with me, with thoughtful attention to the person you love and the details that matter to your family.

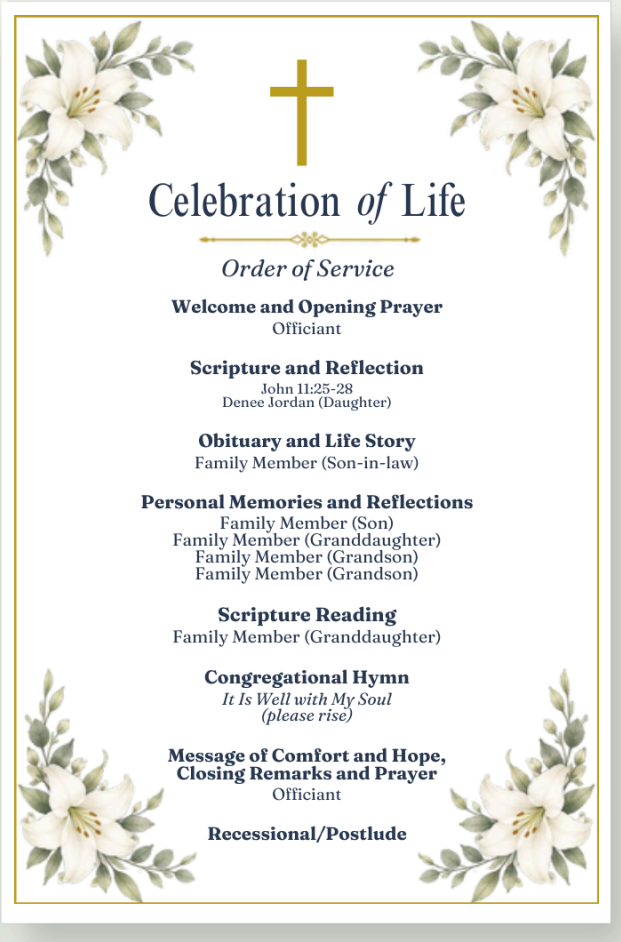

This work is dedicated to my dad, Jim. In my sadness, it has given me a way to keep honoring him—and to offer another family the kind of help I would have appreciated.
